 (Spars copies)

No. 455 W/4.10.30Station Bellary Dated the 4th September '30From (Name) M. R. Ry. N. Narayana Rao Garu, B. A., B. L(Designation) Chairman Municipal Council, Bellary.

To The Secretary to the Government of Madras,

Local Self Govt' Department.

Sir,

M A D R A S .Ref:- Your G. O. No Ms.2334 P.H. Dated 23-9-'30

As per your directions I had sent plans & estimates to the Sanitary Engineer for his approval of the same but his reply, copy of which is here to attached, indicates that you have sanctioned a house connection for domestic use only and not an ornamental fountain. In my No455 W of 13-8-30, I have clearly requested the Government to sanction the construction of an ornamental fountain. I have stated therein that an ---- ornamental bronzed fountain has been purchased for Rs 420/-.

The Sanitary Engineer is perhaps strictly interpreting the G. O. as it does not mention the words ornamental fountain. Whether for domestic purposes or for an ornamental fountain,

2

fountain, a meter will be fixed and water consumed will be paid for. I request you to kindly amend the above said G. O. and sanction the construction of an ornamental fountain subject to the conditions laid therein.

Early order is kindly requested.

No:1966 M dated 2-10-1930.

.....

Sir,

House connection to Cosmopoliton Club, Bellary.

Your No: 194 W dated 26-9-30.

.....

As will be seen from G.O.No:MS 2334 P.H. dated 23-9-30 the sanction accorded was for a house connection with a $\frac{1}{2}$ " waste-not-tap for supply of water for domestic use and not for an ornamental jet fountain. The estimate may therefore be revised in terms of the G.O. referred to above. The quantity of free allowance determined by the Council for this house connection may also be stated.

Water Supply - Bellary - Construc-
tion of an ornamental fountain
Cosmopolitan Club.

Memorandum No:- 37725-2 F, 14d 18/11-30

H-3-4 2/1

A copy of the Sanitary
Engineer's remarks in his note
No.595 G dated 4th November 1930 is
communicated to the Chairman,
Municipal Council, Bellary. The
Government will be prepared to
sanction the proposal to construct an
ornamental fountain at the Cosmopo-
litan Club subject to the following
conditions :--

(1) A meter should be fixed in
the connection and the last length
of pipe line at the fountain end
should consist of a minimum length
of 20 feet of $\frac{1}{2}$ " pipe.

(ii) All water supplied should
be charged for, without any free
allowance, at the rate of Rs.1-4-0
per 1000 gallons, subject to a
minimum monthly charge of Rs.5/-.

(iii) The Chairman should have
the right to cut off the supply
altogether at any time without any
notice, whenever he considers it
necessary in the interests of the

the town supply

(iv) The approval of the Sanitary Engineer should be obtained for the detailed plans and estimate for the work before it is put on hand.

2. The Chairman is requested to report whether the Council ^{and the Comropolitan Club are} ~~is~~ prepared to agree to the above conditions.

From,

The Secretary,

Cosmopolitan Club,

Bellary.

To,

The Chairman,

Municipal Council,

Bellary.

Sir,

I have the honour to communicate the following resolution of the Managing Committee with reference to your L.No: 455/W4 dated 4-9-30.

Resolution.

* The Managing Committee of the Club resolves to agree to the conditions laid down in the Government Memorandum No: 37725-2-E1 PH dated 18th November 1930.

But it requests the Government to kindly reconsider the question of grant of free allowance and the monthly minimum charge of Rs 5/- as the former is against the Bye-laws passed by the Municipality regarding House connections and as the latter is high.

No. Supply of water to a fountain is a non-domestic supply - Expt (d) to Sec 131 of the M.C. Act.

No. It has been resolved corresponding to the rate which the Council levies in the case of the Art Museum Jail.

I have the honour to be,
Sir,
Your most obedient servant,

(5)

Please see G.O. No 2334 P.H. d 23-9-30

in which the Council's request for the permission to erect of public fountain was sanctioned on certain conditions. Following the precedent set

in para II of G.O. No 9 P.H. d 3-1-30 it was treated as a House Service Connection. The

Corr. C. requests that the order may be

revised and permission may be granted

for the erection of a public fountain.

If no all water consumed by the Club will ^{have} ~~be~~

to be charged for as water supplied to public

fountain is deemed to be non-domestic

under the Act. Before issuing final orders

it is for orders ^{whether} the S.E. may be requested to state on what

conditions the sanction may be accorded.

12/10 A reference was suggested on p. 4

15/10 of (5) but it was then considered

unnecessary

Mr. J. C.

What has this G.O. to do with the present case? Were there connections for ornamental fountains?

Q 17/10

- ① G.O. 2334 d. 23.9.30 was issued. Although our ornamental garden fountain is a non-domestic supply, the use of all water for it, a charge by meter should be made, no free allowance being given. Whether it is advisable to grant the request with reference to the supplying of water available for domestic use is one for the Sany. Sugri advises. If it is, the conditions on which it should be given may be suggested.

Q
26/10/30
Sany. Sugri

Bellary water works have been designed and executed on a modest scale for only a limited supply of 7 gals. per head per day. Already the municipal area has been extended and extensions of pipe lines to meet domestic requirements are in progress (e.g. Brucepet extension) or are in contemplation (e.g. supply to Fort and Cantonment areas). Such being the case very great caution should be exercised in diverting any supply for other purposes such as for the ornamental fountain proposed. According to sanction for an ordinary tap for domestic supply in the Cosmopolitan Club on the conditions laid down in G.O. No. Ms. 2334 P.H. dated 23-9-1930 would be the correct thing.

(7)

Since however the Chairman, Municipal Council represents that the ornamental fountain has already been purchased at a cost of Rs 420 and ^{as} under section, 132 of the Act, the Council is itself fully competent to sanction the supply of water for purposes other than

4

than domestic consumption. if it chooses to do so, the proposal of the Chairman may be approved and he may be advised that the connection may be sanctioned with the following conditions.

(i) A meter should be fixed in the connection and the last length of pipe line at the fountain end should consist of a minimum length of 20 feet of $\frac{1}{2}$ " pipe.

(ii) All water supplied should be charged for, without any free allowance at the rate of Rs 2-8-0 per 1000 gallons as fixed by the Council for Alipuram Jail water supply, subject to a minimum monthly charge of Rs 10/-. 5

(iii) The Chairman should have the right to cut off the supply altogether at any time without any notice whenever he considers it necessary in the interest of the town supply.

(iv) The approval of the Sanitary Engineer should be got for the detailed plans and estimate for the work before it is put on hand.

(5)

In the G.O already issued (No. 2334)
{the rate for 1000 gallons of water used in excess
of the quantity allowed free is fixed only at
12 annas. While in the draft all water used
has to be charged at 2/8/- for 1000 gallons. I
don't know if the Council would like to have the
public fountain at that rate. It is better that
the Chairman is asked to state whether he will
agree to the conditions laid by the Sanitary
Engineer. A copy of his remarks may be sent ~~to~~
and the opinion of the Council may be asked for.
It may be the Council may not press for a public
fountain under these conditions.

B.M
11-11-30

D.S

With reference to the note at 'A' above
by the Hon'ble M-1 it is submitted that the rate
of 12 annas was fixed on the assumption that the
tap was a house service connection and that the
water was intended for domestic consumption. In
the case of water supplied for domestic consump-
tion a certain quantity is supplied free of charge
and the excess consumption is generally charged
at a low rate. In the case of water supplied for
non-domestic purposes the rate is generally
higher than what is charged for domestic consump-
tion and no free allowance is given in this case.
In this connection it is also submitted that the
Bellary Municipal Council has since agreed to
reduce the fees charged for water supply to ~~the~~
Alipuram Jail from Rs.2-8-0 to Rs.1-4-0 per
1000 gallons. The Council may be asked to
report if it is prepared to agree to pay charges
at Rs.1-4-0 per 1000 gallons for water supplied

1907 in linked
file

supplied to the Public Fountain under consideration. ~~A draft memorandum is submitted for approval.~~

B.P.K
14-11-30

In view of the reduction of the rate^u from Rs.2-8-0 to Rs.1-4-0, it is also for orders whether the minimum monthly charge of Rs.10 laid down in condition (ii) on page 4 ante may also be correspondingly reduced to Rs.5.

AS
19/11-30

AS
17/11

C.M. 46277 from the C.M.C. Bellary n^o 455-W d 3-12-30 1/4-8-1

AS.3

The C.M.C. Bellary reports that the Council agrees to the conditions laid down in the above memo. The Cosmopolitan Club has also agreed to the same but it however requests Govt to reconsider the question of granting free allowance and also the minimum charge fixed by Govt. It does not appear necessary.

The:

to do so, since the supply of water to a fountain is deemed to be a non-domestic supply under Explanation (d) to Section 131 of the D.D. Act and since the rate has also been reduced corresponding to the rate which the Council levies in the case of the ^{movements made by the Club cannot therefore be complete} Alifurum Tail. The erection of the fountain ^{work} may now be sanctioned. The draft order already ^{therefore} approved may ^{be} issue.
